## OBJECTIVE

Computer Science student at VIT-AP with a strong interest in full-stack web development and software engineering. Experienced in building scalable web applications using Node.js, Express, React, and PostgreSQL. Passionate about developing real-world applications and improving problem-solving skills through hands-on projects.

## EDUCATION

- **Vellore Institute of Technology – AP** • **2024-2029**

Computer Science and Engineering (Integrated M-tech)

GPA: 9.25/10.0

- **Sree Vasishta junior College** • **2022-2024**

Board of Intermediate Education, Andhra Pradesh

Percentage: 92.8%

- **MEER MEMORIAL HIGH SCHOOL** • **2021-2022**

Board of Secondary Education, Andhra Pradesh

PERCENTAGE : 90.6

## PROJECTS

- **OpenShelf – Personal Book Knowledge & Reading Progress Tracker**
  - **Node.js, Express.js, PostgreSQL, EJS, Axios, Open Library API** **August 2025 – October 2025**
  - Built a full-stack book tracking application using Node.js, Express, and PostgreSQL to manage reading progress, ratings, and reviews.
  - Integrated the Open Library API using Axios to enable book search and automatic cover image retrieval.
  - Developed a dashboard system displaying reading statistics including total books, completed books, and currently reading.
  - Designed a responsive card-based UI using HTML, CSS, and EJS for book discovery and library management.

- **Melix – Full Stack Blogging Platform**
  - **React.js, Node.js, Express.js, PostgreSQL, Axios, Multer** **January 2026 – March 2026**
  - Developed a full-stack blogging platform using React and Node.js enabling users to create, edit, and manage blog posts.
  - Built RESTful APIs with Express.js and PostgreSQL for posts, comments, and user interactions.
  - Implemented a rich text editor for formatted blog content including headings, links, and images.
  - Integrated image upload functionality using Multer for managing post cover images and media.

## TECHNICAL SKILLS

- **Programming Languages:** Java, Python, JavaScript
- **Frontend:** HTML5, CSS3, Bootstrap, React
- **Backend:** Node.js, Express.js, EJS
- **Databases:** MySQL, PostgreSQL
- **Tools:** Git, GitHub, Postman
- **Core Concepts:** Data Structures, Algorithms, OOP

## SOFT SKILLS

- **Problem Solving**
- **Communication**
- **Team Collaboration**
- **Adaptability**
- **Time Management**

## HOBBIES

- Badminton
- PC Gaming
- Listening to Music

## LANGUAGES

- English – Fluent
- Telugu – Native
